Fees, Tuition and Cost of Living

There are no tuition fees for exchange students and students from EU/EEA countries. Free mover and degree-seeking students from non-EU/EEA countries have to pay tuition fees of € 1,500 per semester. All incoming students have to cover a **Student Services Fee** of approximately € 100 per semester. Free Movers have to pay an additional **administration fee** of € 70 per semester. The **cost of living** in Stuttgart is estimated at € 700 per month.

Language Requirements

The languages of instruction at the University of Hohenheim are **German** and **English**. A minimum **level of B2** in the desired language(s) of instruction is highly recommended.

The University offers **German language courses for international students** for a fee.

Profile and location

With a unique and **interdisciplinary** profile in the fields of agricultural, natural and business, economics & social sciences, the University of Hohenheim is amongst the leaders in national and international university rankings.

The University is located in **Stuttgart**, the capital of the south-western state Baden-Württemberg, and is one of the few **campus universities** in Germany. Center of the campus is the **baroque palace**, surrounded by magnificent botanical gardens, sprawling parklands and experimental farming grounds.

The University has a well-established **worldwide exchange network**, providing students of its many excellent partner universities with the opportunity to study in Hohenheim. Currently, more than 9700 students are enrolled at the University, with approximately **14% international students**, coming from nearly 100 different countries.

Student dormitories

The dormitories at the University of Hohenheim are mostly nearby the university campus. All rooms have **access to the internet**. Communal facilities include washing machines, tumble dryers, common and party rooms. Rent for rooms ranges from € 220 - 320. The application deadline for student residences is July 15 (for the winter semester) or December 15 (for the summer semester).

Language Center

Hohenheim's Language Center offers language classes in English, French, Spanish, Italian, Russian, Swedish, Portuguese, Chinese and German for foreigners. A **preparatory intensive German language course for exchange students** is offered in September and March, before the semester begins. The application deadline for this intensive course is in mid-June (for winter semester and academic year) or in mid-December (for summer semester).

International Students Organization (ISO)

ISO is a student initiative supporting all international students studying in Hohenheim. Apart from the **Buddy Program**, which provides every exchange student with a German buddy to help with getting settled in Hohenheim, ISO also organizes several events throughout the year, such as International Culture Nights or trips around Germany.

Faculty of Agricultural Sciences

In terms of both teaching and research, this Faculty contributes significantly to the development and evaluation of **sustainable production techniques** in agricultural and nutrition sciences, as well as to the **preservation** of rural areas and animal welfare, **consumer and environmental protection**. The key aspects of research and teaching are climate change and scarcity of resources, global food security, genome diversity in agriculture, adding value through bioenergy and biobased products.

www.agrar.uni-hohenheim.de

Faculty of Business, Economics & Social Sciences

Top-level research and a strong commitment to teaching and learning characterizes the Faculty. A distinguishing feature of the Faculty's **scientifically based and practice-related** study programs is the "**Hohenheim Model**" of interdisciplinarity. Students enjoy significant latitude in choosing courses from a variety of disciplines, including **economics, business, law and sociology**.

The Faculty enables its students to obtain **specific knowledge** and to understand the overall business, economic, and societal contexts.

Faculty of Natural Sciences

The study of natural sciences at the University of Hohenheim focuses on the disciplines of **biology, nutritional sciences and food science**. The basic natural science subjects of chemistry, physics and mathematics complete the academic landscape of the Faculty of Natural Sciences.

The Faculty's primary fields of research are focused on central issues of the life and health sciences, such as **„Biological Signals“** and **„Health and Safe Nutrition“**, while also being firmly integrated in the University-wide research focus **„Bioeconomy“**.
